- 15) [a] The entrant must drive throughout the competitive part of the trial and the seat alongside the driver must be occupied at all times* by a passenger over the age of 12. No passenger under the age of 12 and no dogs may be carried on observed sections.
- [b] The number of passengers may not be varied from section to section nor may any ballast. All passengers under the age of 18 require written permission from parent or guardian, to be handed in when signing on.
- *All passengers must, if required to do so by a marshal, get out of the car prior to reversing down sections.
- 16) Passengers must be properly seated within the confines of the vehicle. Bouncing is allowed within these constraints. (MSUK T4.1.11)
- 17) [a] The method of marking scores will be as follows:
Competitors will be credited with the appropriate score as defined by markers set out on the driver's side of the car. The front hub centre line of either of the front wheels will be used to determine the score when judged in line or beyond a marker without penalty. A car will be deemed to have stopped when the un-driven wheels cease to revolve, or when it touches a marker of any kind, or if all four wheels of the car are outside the boundary of the course (MSUK T6.4.2). All marshals are 'Judges of Fact', they will determine your score and record it on your score card. Competitors are responsible for score card legibility.
- [b] If a 'stop and re-start' is called for on any section, competitors will be briefed by the start marshal. Cars must be driven up the section to stop astride the stop line (if there is a second line creating a box, front wheels must not go beyond the second line). At a signal from the marshal, with no rolling back or manoeuvring, cars should restart and continue up the section.
- 18) At scrutineering, cars will be checked for security of batteries and throttle return springs, fire extinguishers where fitted, general 'soundness of purpose' and appropriate tyres. Adequate mudguarding is mandatory front and rear.
- 19) 'Knobbles' and motor cycle trial type tyres are NOT permitted. The PWA7C accepts the VSCC standard for trials tyres and the scrutineers have the decision on suitability. Tyres are not to be fixed to the wheels by security bolts or similar fastening. Fiddle brakes are NOT allowed. Tyre pressures may be reduced to a minimum of 8 psi on all classes if so desired. If tyre pressures are reduced for attempting the hills they MUST be re-inflated to the normal pressure before the car returns to the public highway. Entrants must try not to drop mud on the public highway if driving home in their trials car.
- 20) Awards will be given for overall winner and class winners.
- 21) In the event of a tie for first place, the greatest number of cleared sections will be used to determine the winner.
- 22) Final instructions will be given at Signing On and the Driver Briefing.
- 23) Provisional results will be announced a.s.a.p. after the event. Final results will be posted on www.pwa7c.co.uk and e-mailed within seven days of the event.
- 24) Entrants are requested to follow the Country Code, close all gates they have cause to open and drive with respect to residents and other countryside users, particularly horses. Entrants observed driving in such a way as to bring the Club, or motor sport, into disrepute will be disqualified.
- 25) Entries will be acknowledged provided a Stamped Addressed Envelope has been supplied.
- 26) A refund (less £5 administration charge) will be given up to and including the closing date for entries.
- Entrants are encouraged to bring friends to act as hill marshals, spectators are also welcome.
